8. DESCRIPTION AND CHARACTERISTICS OF AREA:

Terrain: level with favorable grades and no construction hazards. This area known as Santa Anita Village which has been recently plotted contains 58 building sites, 21 of which are said to have been sold at prices ranging from $695 to $1095. There are no completed improvements in this subdivision although construction has started upon several in the past few weeks. Deeds provide for racial restrictions in perpetuity and limit improvements to 1200 sq. ft. which must be constructed under architectural supervision. This development is being marketed under the same sponsorship as areas A-19, A-20, and A-21, and the same general description and characteristics will apply to this area. The location, however, is not deemed so desirable, and building requirements permits smaller structures. The area is assigned a provisional "low green" grade.
