4. OVERHANG OF HOME PROPERTIES:

5. SALE OF HOME PROPERTIES:

6. MORTGAGE FUNDS: Ample

7. TOTAL TAX RATE PER $1000 (1938): $39.00

8. DESCRIPTION AND CHARACTERISTICS OF AREA:

Terrain: Level to rolling. No construction hazards. Land improved 60%. Many large homesites. Deed restrictions provide against racial hazards, and supervision of improvements, etc. Schools, churches and trading centers are reasonably available. Transportation is limited to interurban line on Huntington Drive. This district was originally developed by citizens from Michigan, Illinois and Indiana, which accounts for its name. Earlier developments were large size dwellings surrounded by small acreage estates. Later improvements have consisted of well maintained 5 and 6 room bungalows of standard construction and attractive architectural designs. While not a sustenance homestead area, practically all homesites are of sufficient size to permit garden tracts and small orchards. Population is homogeneous and evinces a general community pride. The price brackets shown above are nominal only as amount of land involved governs prices. Adjoining high grade area to the west is a favorable influence. Some scattered chicken ranches in the area is a detrimental factor. Indications are that this area will remain desirable for many years to come and it is accorded a "medium blue" grade.
