8. DESCRIPTION AND CHARACTERISTICS OF AREA:
   Terrain: Level with favorable grades. No construction hazards. Land improved 90%. Deed restrictions are said to govern improvements and protect against racial hazards. Conveniences are all readily available. This is one of the older Los Angeles Investment Co. subdivisions and has had a steady growth. Owing to fact that area is rapidly reaching saturation point, activity has been declining. Construction is of good quality and maintenance indicates high pride of occupancy. Improvements consist of well built homes of 1 and 2 stories with ground well landscaped. Streets are well platted with ornamental trees in parkings and electricity lighting system throughout. Population is homogeneous. Mortgagee institutions regard the area highly. The extreme southern portion of area is slightly less attractive. A grade of "medial blue" is accorded.

9. LOCATION: Angolus Mesa
   CAUTION: This area is currently affected in whole or in part by an Ad valorem Tax District. Individual properties should be checked for this hazard.
