8. **DESCRIPTION AND CHARACTERISTICS OF AREA:**
   - Terrain: Level with favorable grades. No construction hazards. Land improved 90%. Deed restrictions provide for uniform set backs, govern improvements and protect from racial hazards. Conveniences are all readily available. This subdivision was placed on the market by the Los Angeles Investment Co. over 20 years ago, and has shown a favorable development. Construction and maintenance is of good standard quality. Architectural designs, uniform set backs and well improved parking strips give to the area a harmonious aspect. Population is generally homogeneous and exhibits community pride. Multi-family dwellings are quite numerous along Lomirert Blvd. and Garthwaite Ave. These are maintained in keeping with other improvements in the district. Lots are usually 15 ft. with values ranging about $15 to $20 per front foot. The area is adjacent to the Crenshaw Blvd. business district. Age and growing obsolescence preclude assigning higher than a "low blue" grade.
