8. DESCRIPTION AND CHARACTERISTICS OF AREA:
   Terrain: Level with no construction hazards or flood threat. Land improved 75%.
   This area comprises the entire town of Covina which, because of its small size, prohibits breaking down area into degrees of desirability. The town itself is static as to growth and future, being another Valley citrus center. Dwellings are heterogeneous but streets are well laid out - set backs are uniform and there is a generally pleasing aspect to the entire community. Business section is well laid out and handy to entire area as are schools. Absence of zoning has not harmed the residential areas and city is not growing fast enough to make this a future hazard. Better type dwellings are scattered throughout but are largely concentrated west of the City Park. Lot values run from $6 to $10 per front foot. There are no Mexicans in this community and there is an unwritten law prohibiting their presence.
