   1938-9

6. MORTGAGE FUNDS: Limited

7. TOTAL TAX RATE PER $1000 (193__) $52.70

8. DESCRIPTION AND CHARACTERISTICS OF AREA:
   Terrain: Level with favorable grades and no construction hazards. Land improved 90%. About half of the area is zoned for multi-family dwellings and the balance single family. Conveniences all readily available. This area was subdivided and placed on the market some 20 to 25 years ago and its earlier development was almost wholly single family residences. Lately, however, improvements have run quite strongly to multi-family construction and there are quite a few large apartment houses in the area. The best of these are on Havenhurst and Crescent Heights and are of Class A construction. While many of the old homes are highly maintained and are still in original ownership, the trend of the area is definitely toward residential income property with a threat of business encroachment in the course of time. Lot values are from $40 to $60 per front foot which militates against single family construction in an area of this character. Realtors state that FHA financing is having the effect of lowering rental values which is very noticeable in this area. It is thought that the trend of desirability in this area will remain static to slowly downward for the next ten years. It is, therefore, accorded a "medial yellow" grade.

9. LOCATION: Fountain-Crescent Heights Dist.
   SECURITY GRADE: 3rd
   AREA NO.: 6-78
   DATE: 2/24/39
