   6. MORTGAGE FUNDS: Ample
   7. TOTAL TAX RATE PER $1000 (1939) $49.41
   County $36.39 - City $11.02
   8. DESCRIPTION AND CHARACTERISTICS OF AREA:
   Terrain: Level with favorable grades and no construction hazards. Land improved 50%. Deed restrictions protect against racial hazards are in perpetuity, otherwise provisions are said to be inadequate and sketchy. Largely zoned single family residential. Conveniences are all readily available. This area was platted and placed upon the market in 1927 or 1928. The depression interrupted its development but its growth since 1935 has been rapid, particularly since the advent of FHA insured loans. Construction and maintenance are generally of good character. Lot values run from $750 to $10, per front foot. The general appearance of the district is harmonious and its population apparently homogeneous. The area is without sewers and many of the streets are not yet improved. However, it is a popular medial income district and has distinct possibilities. Owing to the somewhat isolated location and lack of amenities mentioned, it is not felt that higher than a "medial yellow" grade is warranted.

Long Beach Blvd. & Artesia Street
