8. DESCRIPTION AND CHARACTERISTICS OF AREA:  
   Terrain: Level with no construction hazard. Land improved 90%. Expired deed restrictions. Largely single family zoning. Conveniences all readily available. Forty years ago this was a good medium priced residential district but since deed restrictions expired some 10 years ago it has rapidly become infiltrated with negroes and Japanese. Improvements consist largely of obsolete California style bungalows which have been fairly well maintained. The area is highly heterogeneous both as to population and improvements. It is considered the best Negro residential district in the city. This is particularly true of that part west of Western Ave. Owing to stability of values and evident pride of ownership, the area is accorded a "high red" grade.
