Savings and Loan Situation and HOLC Activities in Los Angeles, California

In connection with the general summary of our re-survey of Metropolitan Los Angeles, the attached analysis brings out several points which could not be properly discussed in the summary.

The first two pages are devoted to conclusions and general trends. In a few days, arrangements will be made to hold a general discussion of this survey similar to those recently held for other cities. Meanwhile, I hope you will be able to study this material carefully.

Division of Research & Statistics
