31. Summarize the interview with the officer contacted: (See Oakland-Berkeley East Bay Area survey report for interview and information not given above.)

   Agent's Notes: Residential loan and residential real estate owned figures extended under 7 and 14 are 5% of total reported by association. The other 95% was allocated as follows: 70% to the Oakland-Berkeley East Bay Area and 25% to Sacramento. The resulting figures are reflected in the survey reports of those two areas. This was done on the strength of a statement made by W. Narr, Assistant Secretary, that it was not practical to make an actual segregation but that a close approximation could be had by allocating 70% of the residential loan account and residential real estate owned to Alameda County, 25% to Sacramento, and 5% to San Francisco.
